New York Stock Market

New York, February 20,—Increasing rejuctance to enter upon fresh speculative ventures at the present uncertain period was indicated by the small volume of trading to-day on the Stock Exchange. Decisions of the Supreme Court in the independent antitrust cases and of the Interstate Commerce Commission matter of increased freight rates, long looked upon as belonging to the more or less distant future, are now among the possibilities of any week. News from Washington of the increased likelihood of an extra session of Congress added to Wall Street's nervousness, and apprehension. Prices declined swiftly in the first hour of trading, owing less to short selling than to a disposition of traders in long that the outset, and most of the other issues receded by substantial fractions while the selling movement was under way. Lower prices evoked no demand, and there followed a period of duliness, until it became apparent that none of the looked-for decisions would be announced before the close of the market, when buying was begun in a modest way. Prices improved slowly until United States Steel, common, Union Pacific, Lehigh Valley and Missouri Pacific had gained a point; Reading, 2 points, and the list as a whole had reached or slightly bettered Saturday's last figures. Toward the close of the day heavy buying of the Gould stocks and bond, led to the bidding up of other stocks to the highest level of the session. Wabash, preferred, soid 13-4 per cent, above Saturday's close; the 4 per cent, bonds gained 31-4, and the Denver and Rio Grande refunding 5s and Missouri Pacific 4s advanced substantially. Union Pacific, Reading, Missouri Pacific and Lehigh Valley rose a point or more, and the closing was firm, within a fraction of the best level of the day. International Harvester was the central figure of the morning trading. It rose more than three points while the market was awaiting word of the directors

nt. When It became known that the didend declared was at the rate of per cent, yearly the stock dropped ecipitately, losing more than the lount of its earlier gain.
